

NEWS UPDATE FROM YOUR HOME AWAY FROM HOME

CONSTRUCTION:

- The repairs to the upper seawall that was damaged during Hurricane Matthew have been completed and Engineer and City approved.
- While closing the project, the Engineer also inspected the lower part of the seawall and made all repairs necessary to ensure the both parts of the seawall were constructed properly and secure.
- The North wall adjacent to the pool, which was destroyed by Hurricane Irma has been completely replaced and Engineer and City approved.

We here at the Catalina Beach Club would like to thank all of the Owners and Guests for their patience as most of you were inconvenienced and endured limited parking due to the construction and the dumpsters needed during the hurricane repairs.

We are happy to welcome you back home!

Have a great Spring / Summer and we will see you soon....
